## **Traffic Signal Upgrades Begin October 24**

*Motorists can expect minor delays at key city intersections through December 6*

Date: October 20, 2011  
Contact: [Bryan Ariizumi](#), (626) 285-2171

Starting October 24, the city of Temple City will upgrade traffic signals at the following intersections:

**Temple City Blvd. / Las Tunas Dr.  
Baldwin Ave. / Olive St.**

Construction crews will work Monday through Friday from 7 a.m. to 3:30 p.m. Temporary lane and sidewalk closures may occur as needed.

Drivers should expect minor delays and are encouraged to use alternate routes, if possible.

The upgrades provide critical safety improvements including vehicular left-turn signal heads and legally compliant pedestrian curb ramps. Federal and county transportation funds will cover the \$206,000 cost.

The project has a December 6 completion date.

For more information, call the Temple City Public Safety Division at (626) 285-2171, ext. 2333
